

Ole Miss Innovation Center

The Ole Miss Innovation Center sits at Insight Park on the University of Mississippi campus in Oxford, Mississippi. Subsurface Constructors installed 250 [vibro stone columns](#) to provide a maximum bearing pressure of 6,000 pounds per square foot. The site consisted of soft to firm sandy, lean clay overlaying firm to very stiff clayey sand.

Project details:

Owner: University of Mississippi

Geotechnical Engineer: Precision Engineering Corporation

General Contractor: Montgomery Martin Contractors

Structural Engineer: Neel Schaffer

Services Provided: Ground improvement, stone columns

Year: 2010

Location: Oxford, Mississippi
